Developments over the holiday in no wise diminished the feeling of pessimism prevalent among traders. United States Steel. Baldwin Locomotive, Marine Preferred, Anaconda Copper, American Smelting, Brooklyn Transit and Manhattan Raliway lost I to almost 2 points before the end of the first half-hour. Mexican Petroleum and tobacces were the only shares to hold ground.

Leading producers and sellers of copper were reported today to be freely quoting the metal at 25c a pound for the first quarter of 1919, when the present price of 26c fixed by the war industries board will be no longer effective. Orders were being booked freely for account of domestic consumers, it was said, and no inquiries were being received for deliveries beyond March. These orders included one for about 1,000,000 pounds.

Weakness became widespread at midday, industrials, equipments, shippings and ralis sharing alike in the more extensive offerings. The selling halted, however, on unexpected declaration of the regular dividend on Inspiration Copper, which rallied 3 points.

Other coppers benefited by the rally in inspiration, also equipments, olts and motors, but rails made additional concessions. The closing was heavy. Warming and Clearing Up Over Central States Southward to Gulf.

Weather Conditions.

The northeastern disturbance has almost disappeared from the range of today's weather map, the lowest reported pressure being at Eastport, Me. The south-central high-pressure area has advanced to the lower Mississippi valley, causing lower temperatures over the country east of the Mississippi river, forcing the freezing southward into western Florida. Killing frost occurred at Macon, Ga., and Pensacola. It is warming up over the eastern Rocky mountain slope, with clear weather over the central states and southward to the guif. ADMIRAL JELLICOE.

Admiral Viscount Jellicoe, forme commander-in-chief of the grand fleet, speaking as the guest of the American Circle Lyceum club in London, said the situation last spring was critical, and had it not been for the United States navy, he was sure the dinner could not be held. It was that assistance, Admiral Jellicoe con-tinued, that had made possible the convoy system, and it was that system that had saved the situation.

## **RENEWED FIRMNESS** IN COTTON MARKET

New York, Dec. 26.—The cotton market showed renewed firmness at the opening today. Traders evidently found nothing in the news over Christmas to cause any change in the bullish views responsible for earlier week advances, and after opening 9 points lower on July but generally 69:15 points higher the market was firm and active. The selling of July seemed to come chiefly from houses with Liverpool connections. Otherise there was little pressure, with scattered realizing sales readily absorbed by a demand from commission houses and spot interests, while it seemed that some of the pre-holiday sellers were placing their cotton. January sold up to 30.16c, and March to 29.05c and May to 28.20c before the end of the first hour, making net advances of 489:57 points.

Realizing enough was encountered

of 48557 points.

Realizing enough was encountered around 30.13c for January and 29.10c for March, or about 54554 points from the best. There also was some southern selling on the setback, but private advices claimed spot holders were asking the highest basis of the season and the market firmed up again late in the morning, with January selling around 30.04c and March 28.83c, or 40245 points net higher on covering, trade and com-20.04c and March 28.88c, or 40249 points net higher on covering, trade and commission house buying.

Trading was less active during the early afternoon and prices held around 28.90c for March, or about 42 points net higher.
